

Noah's ark craft

The Giant Wave!!

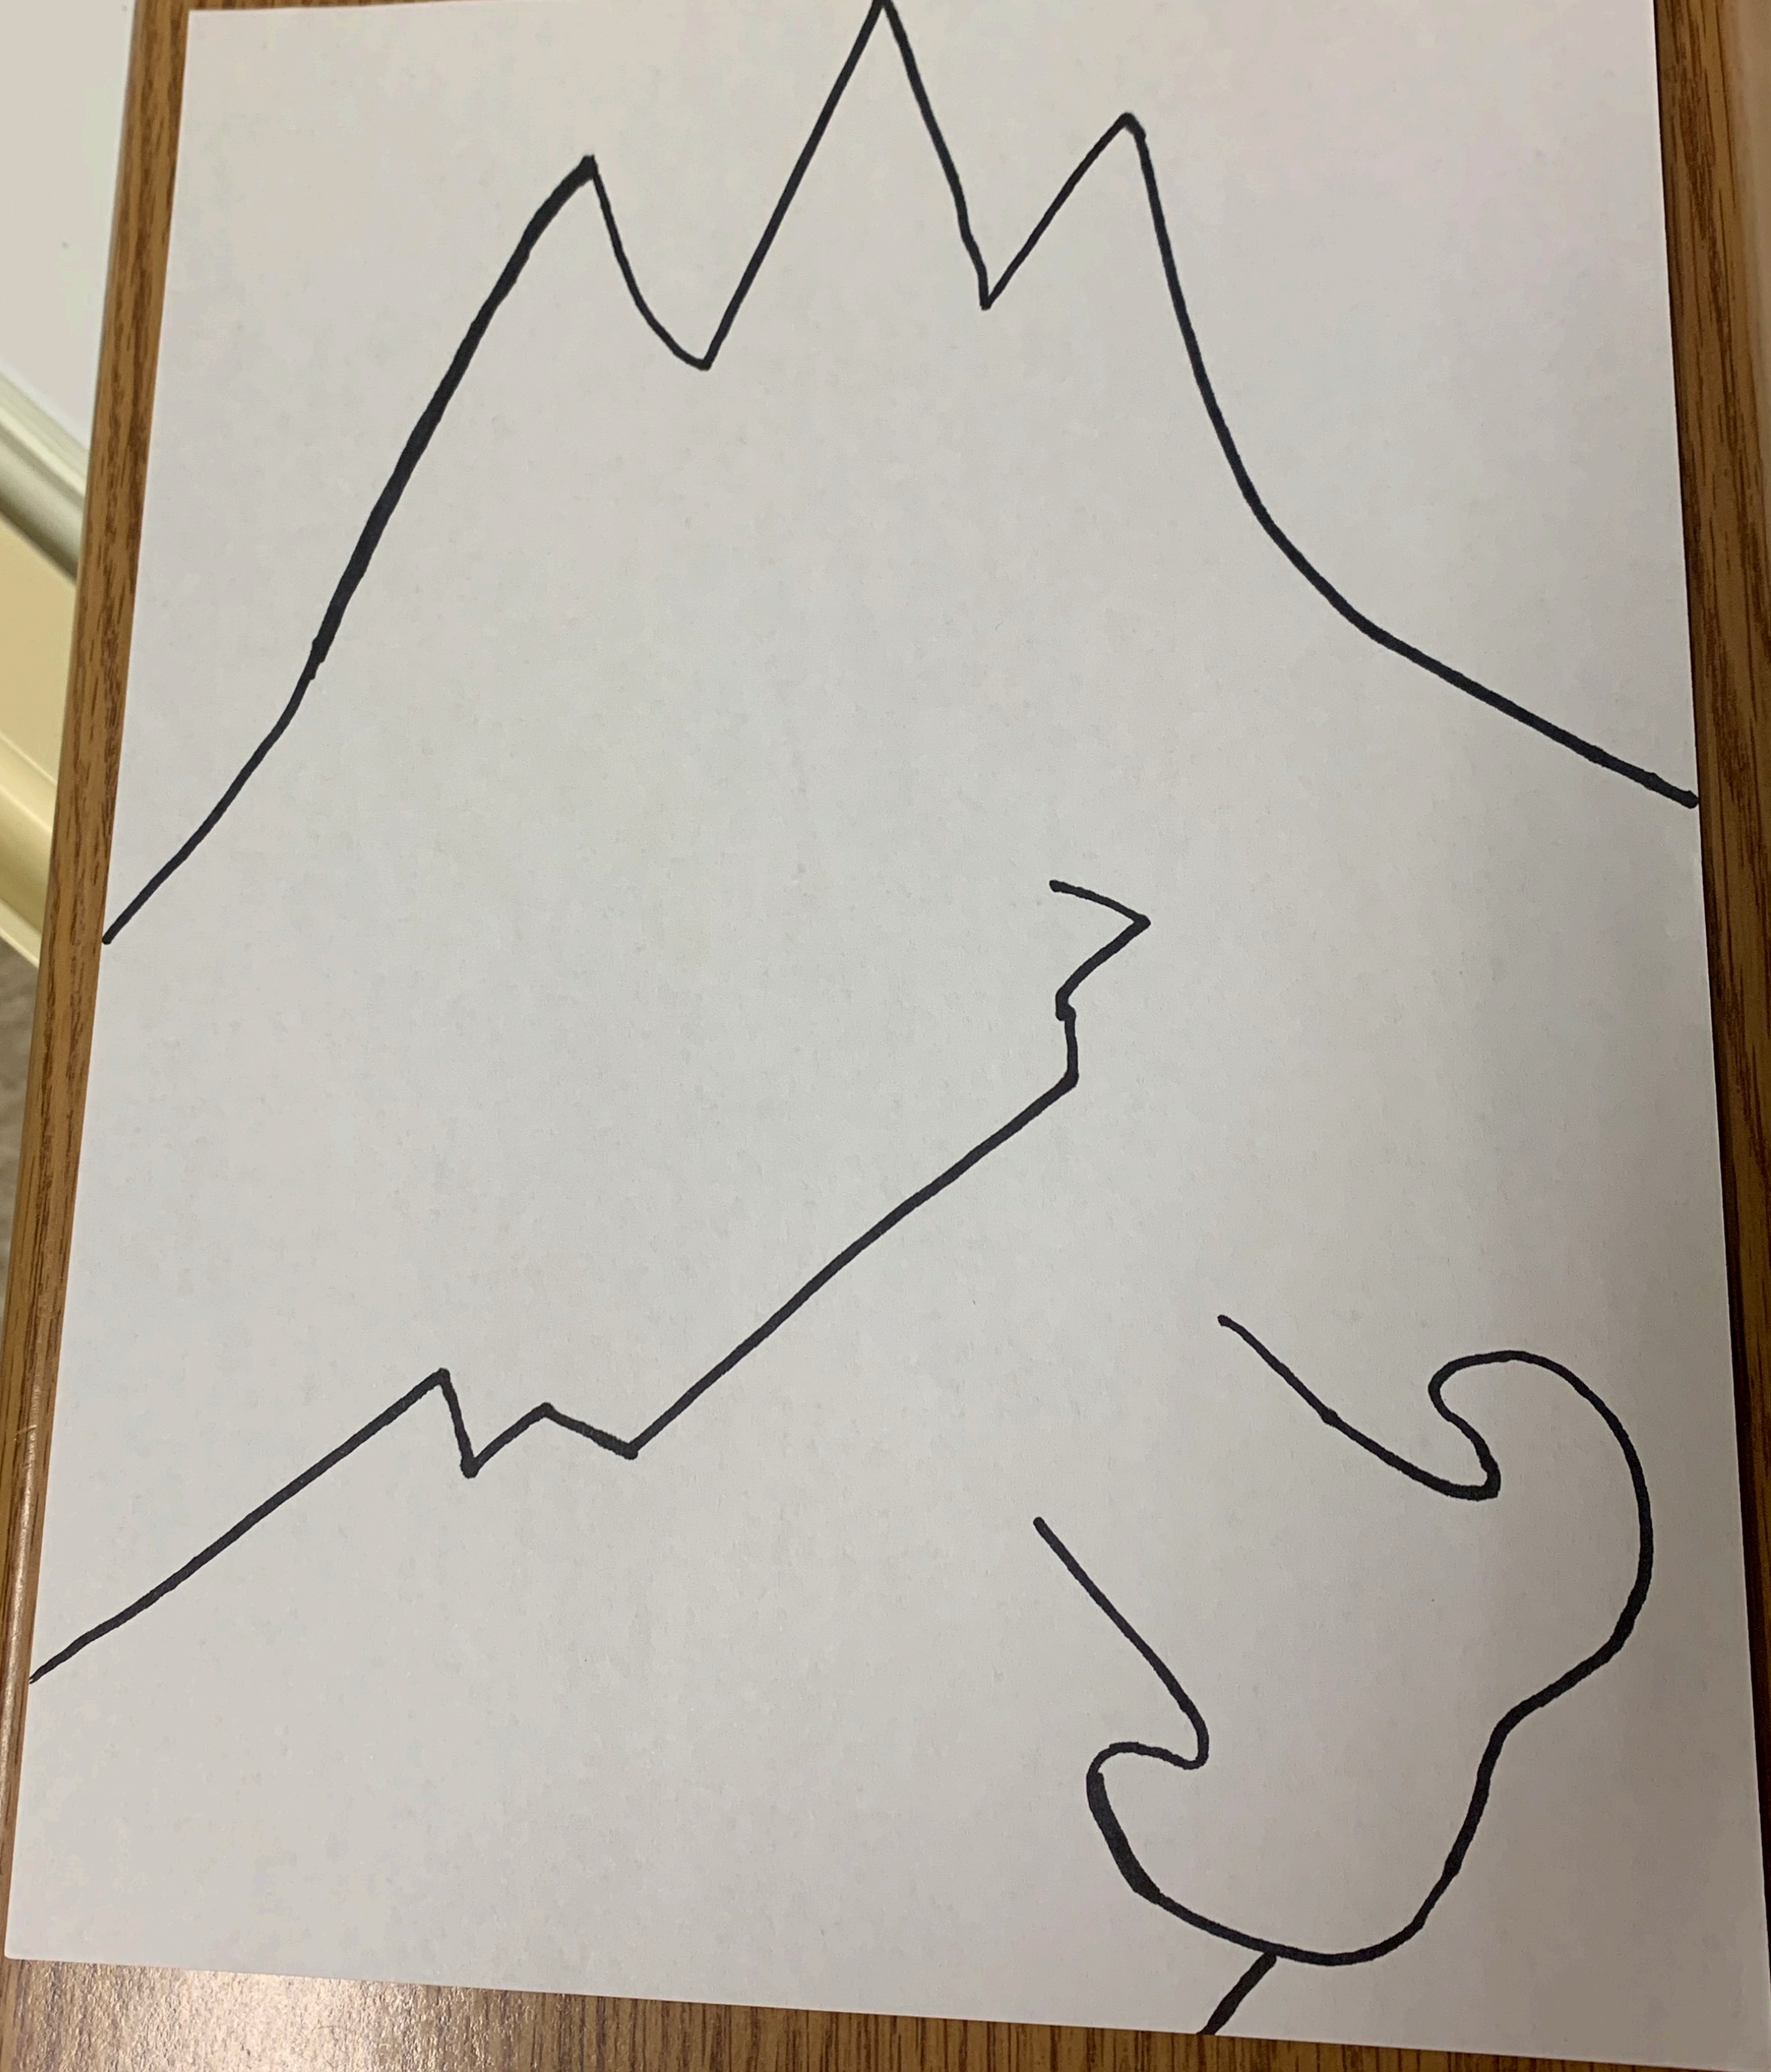

Materials: A4 paper, scissors, markers, pencil

By Sandra McTiernan 3/25/22

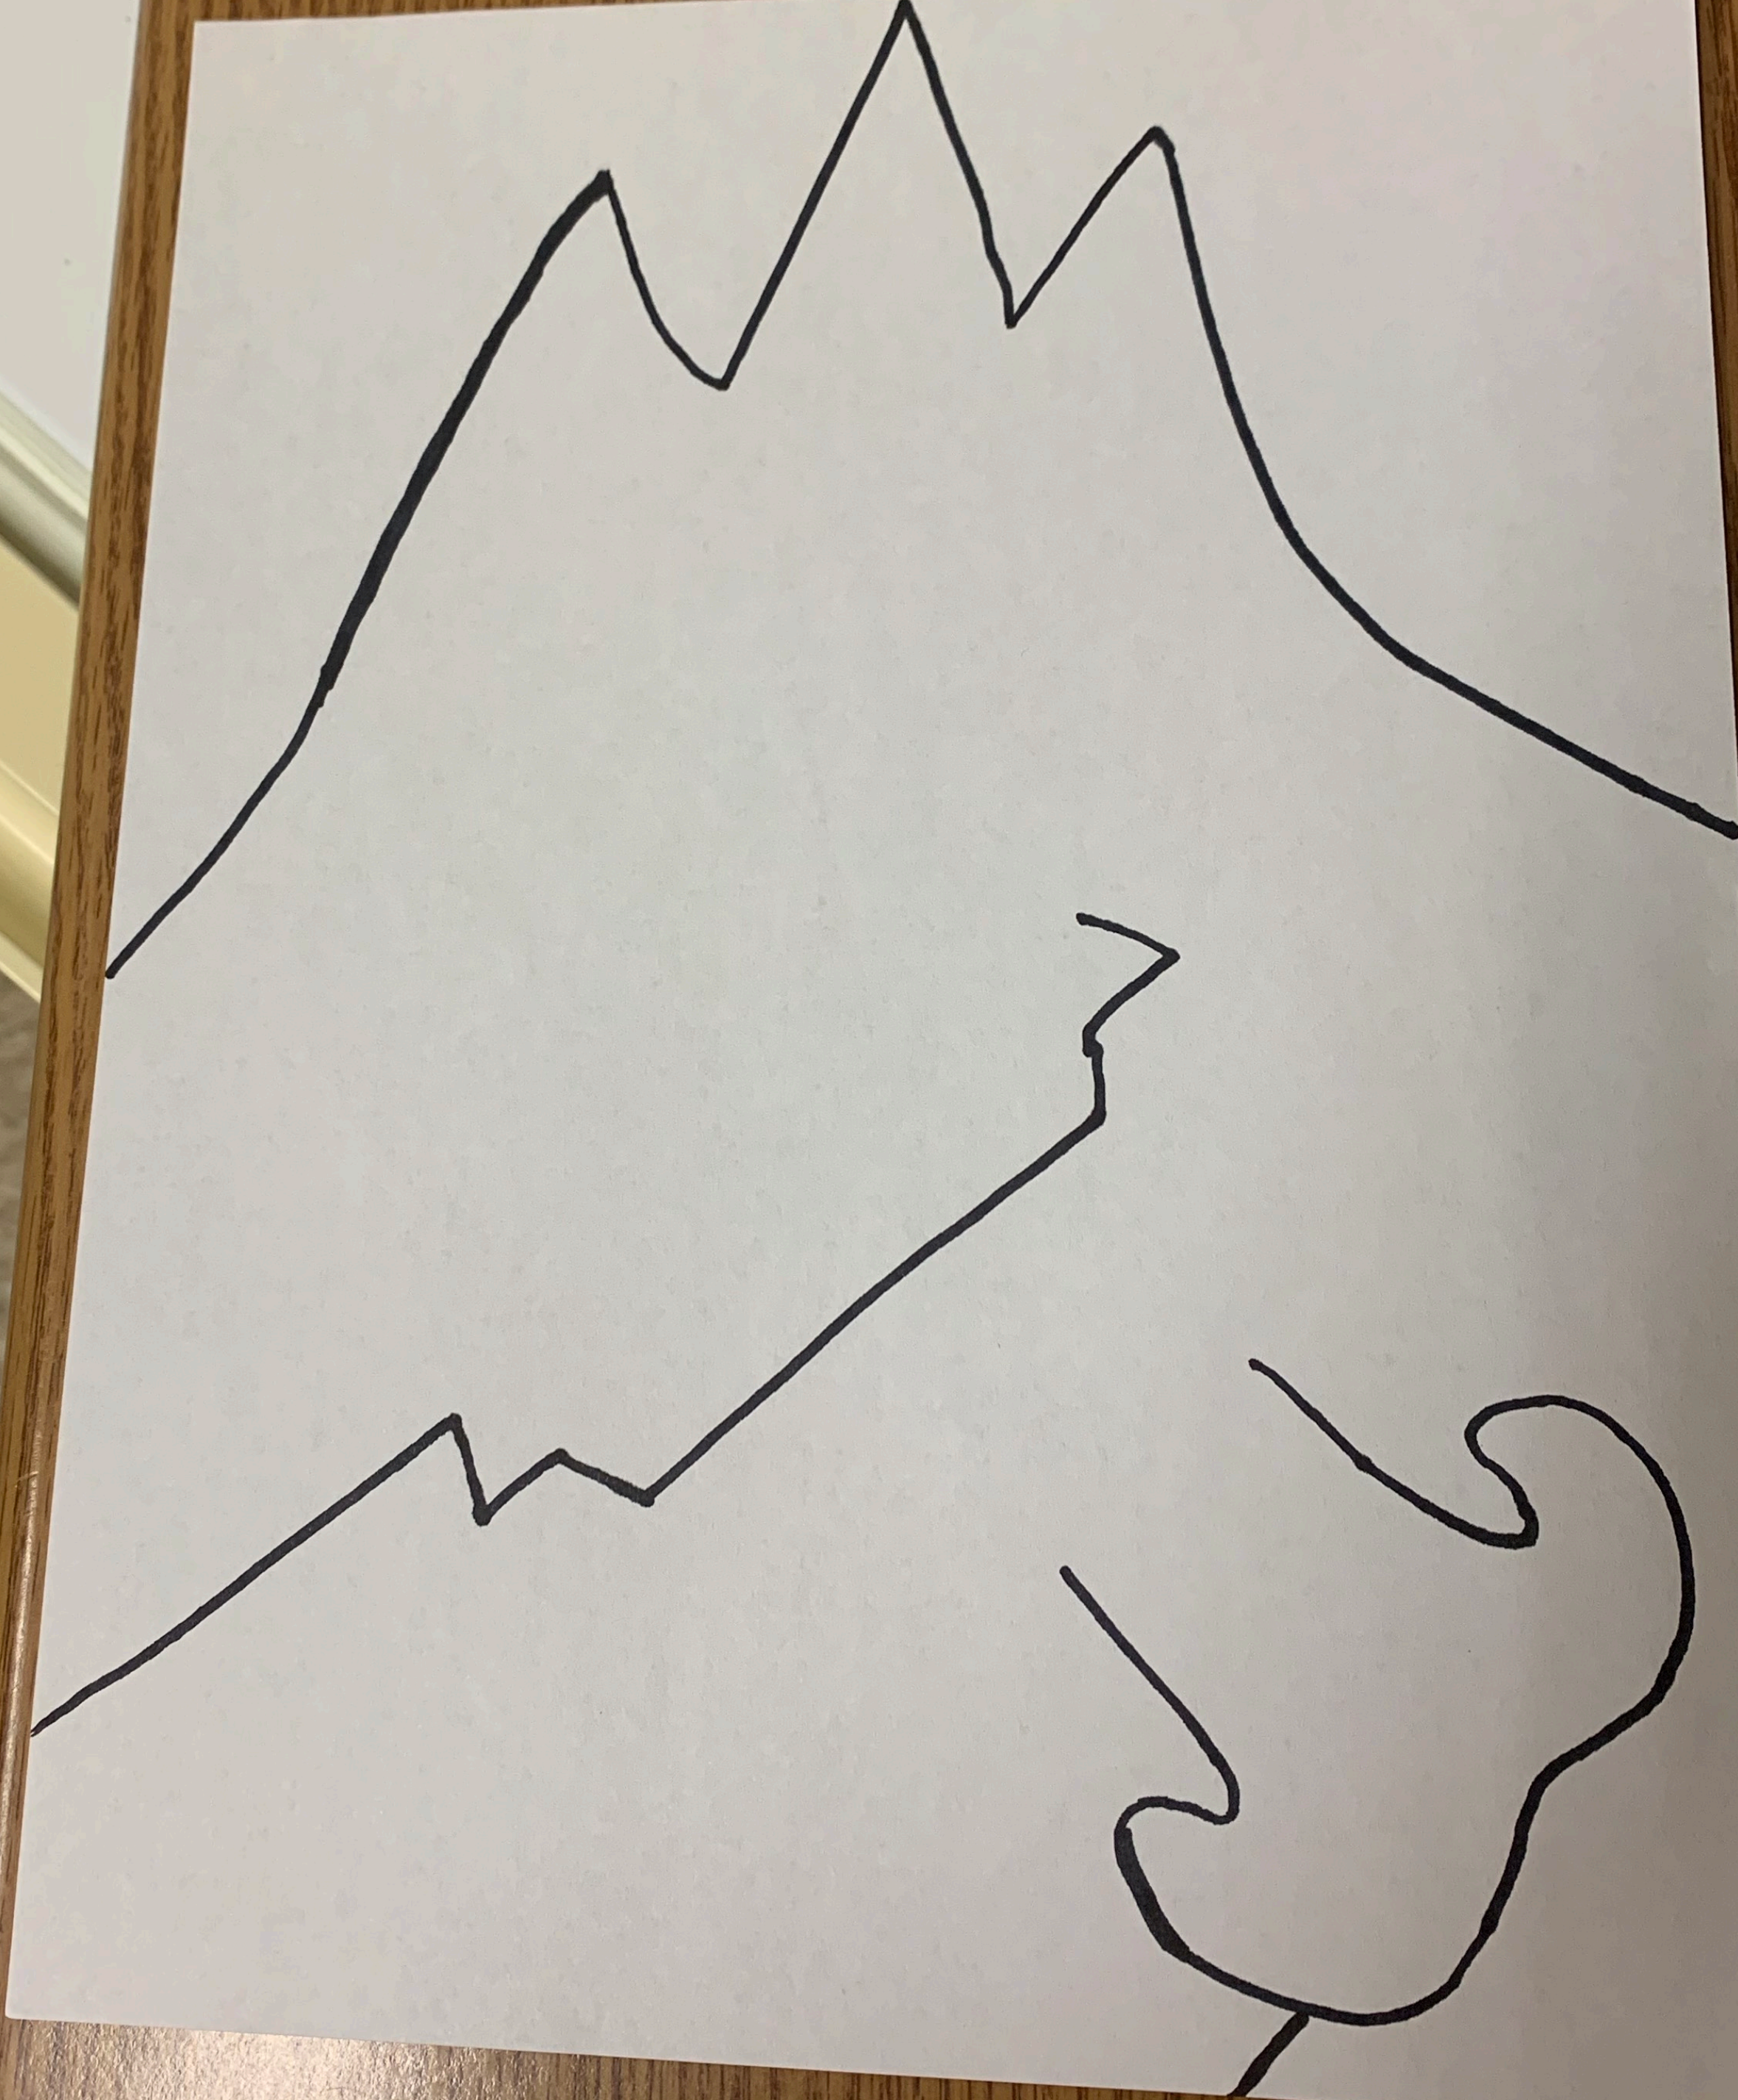

**On one-half of
the page, draw a
three-peaked
mountain.
This is your
wave.**

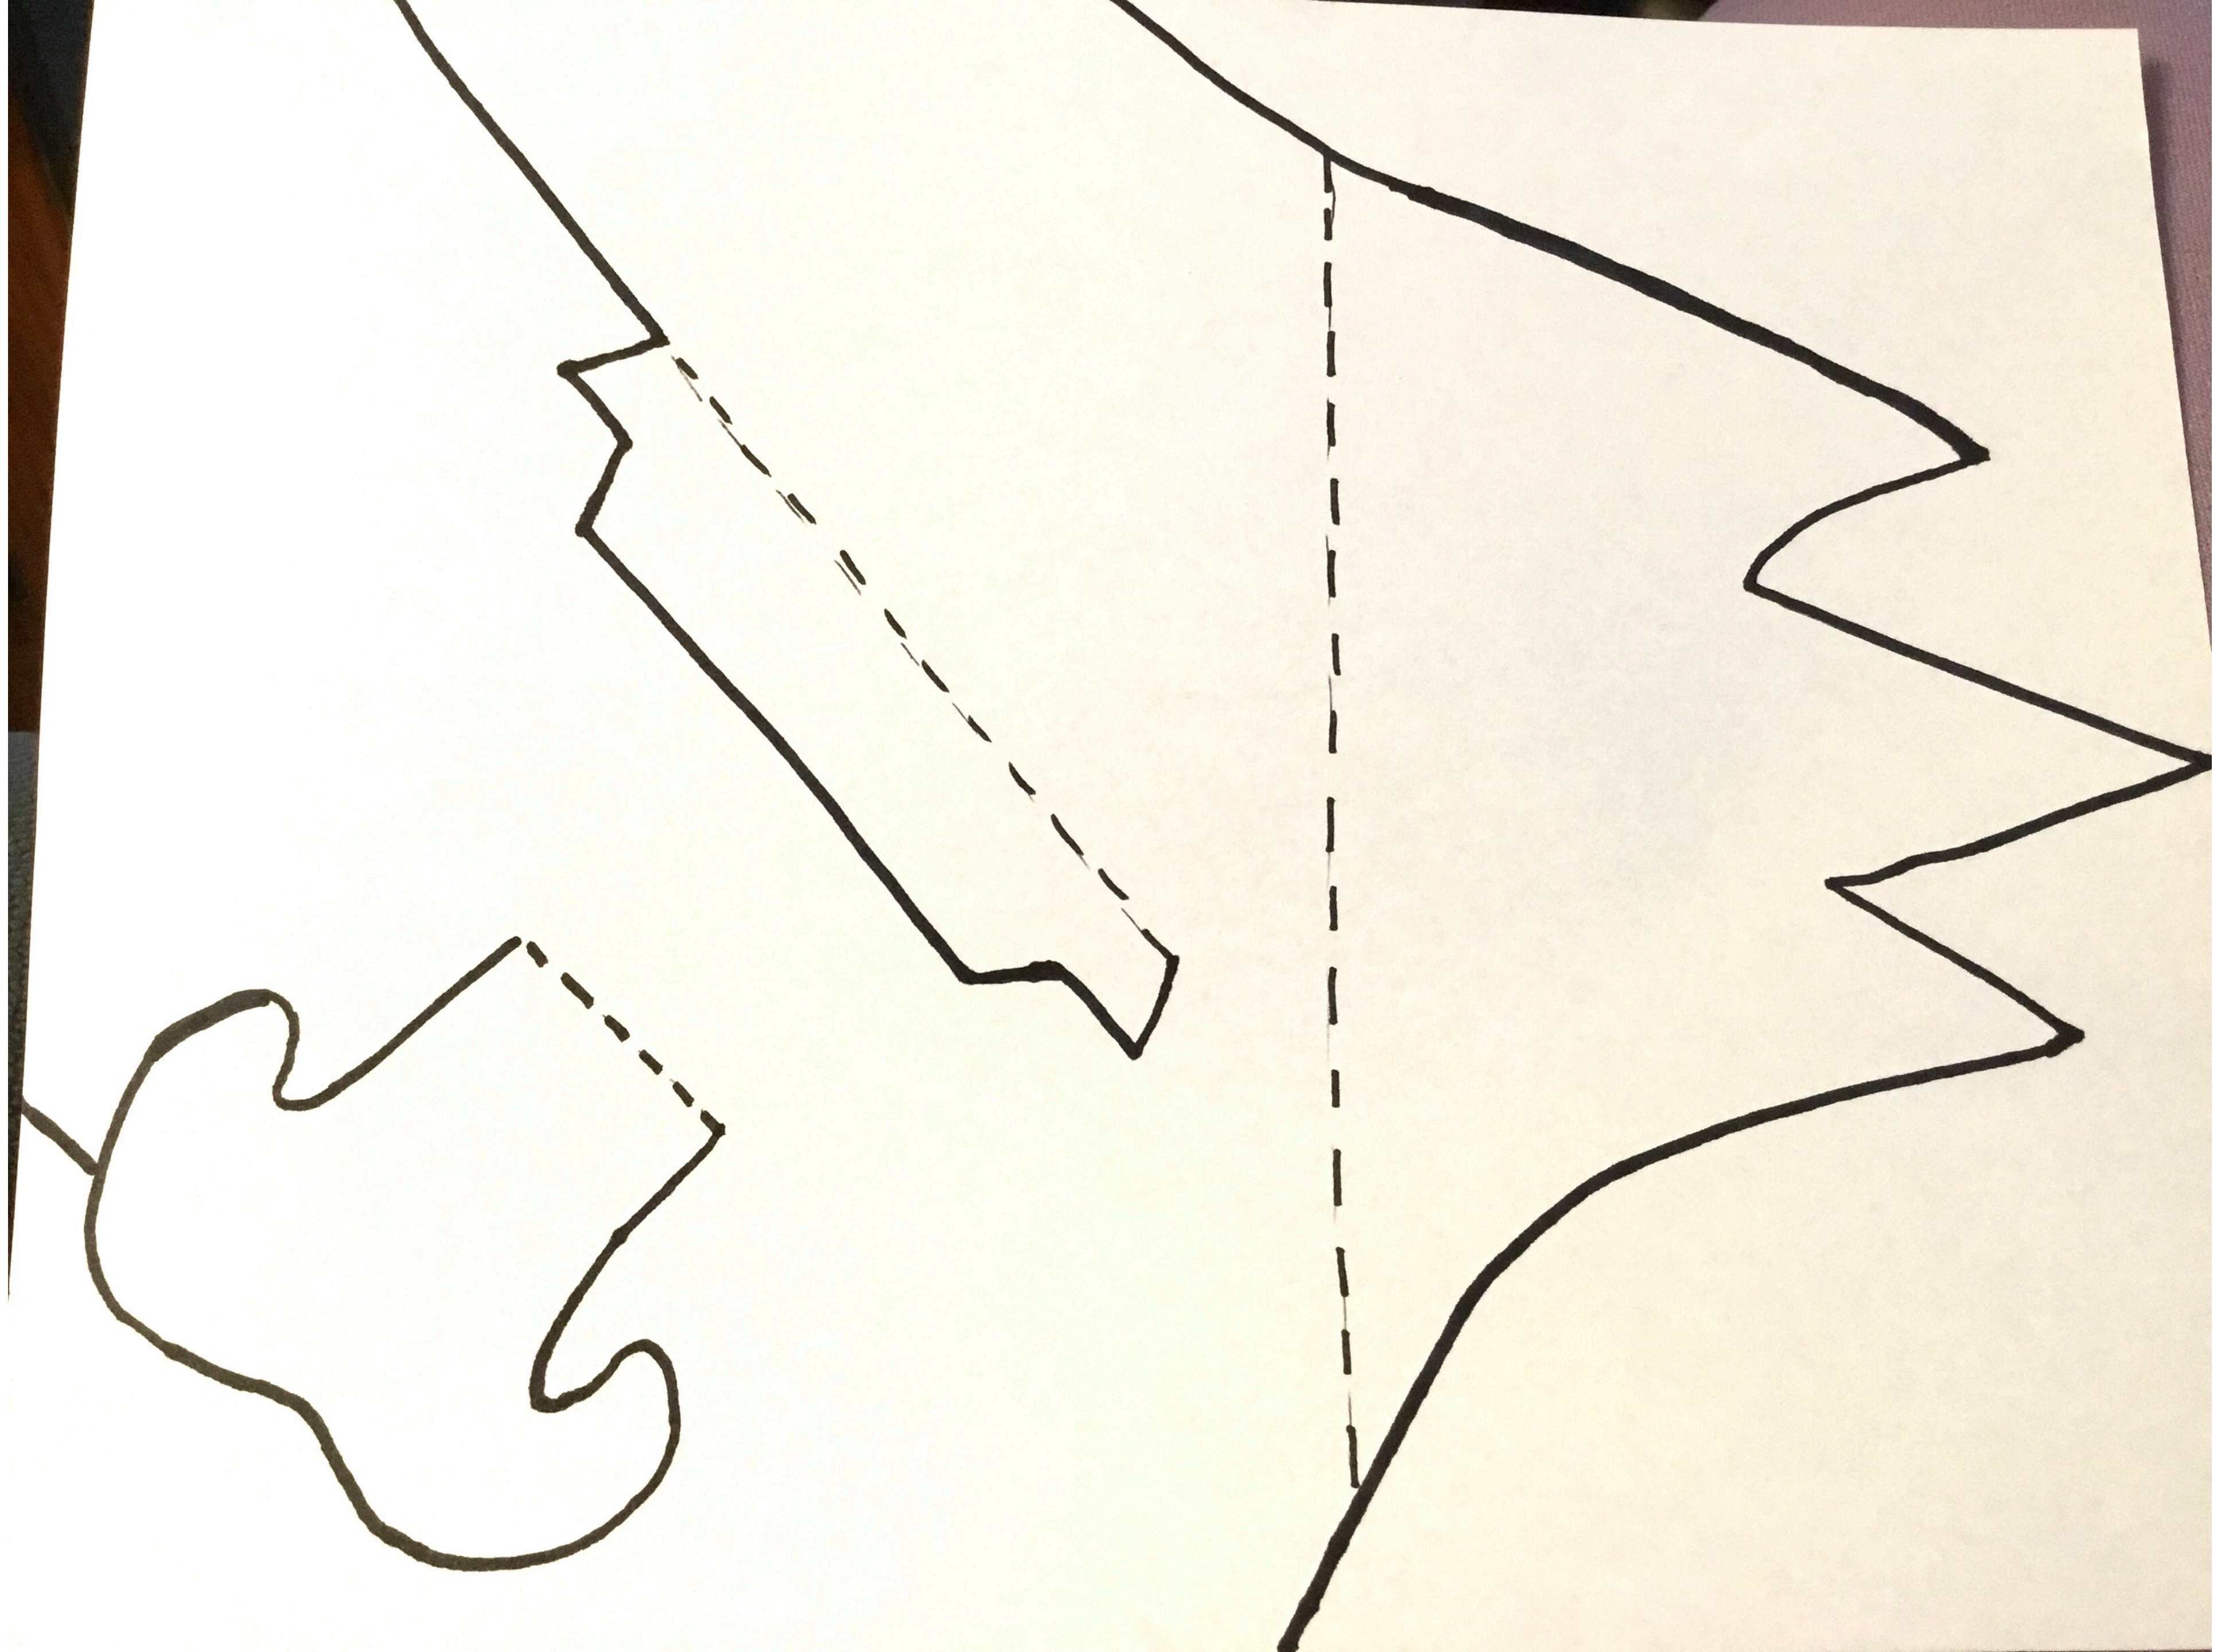

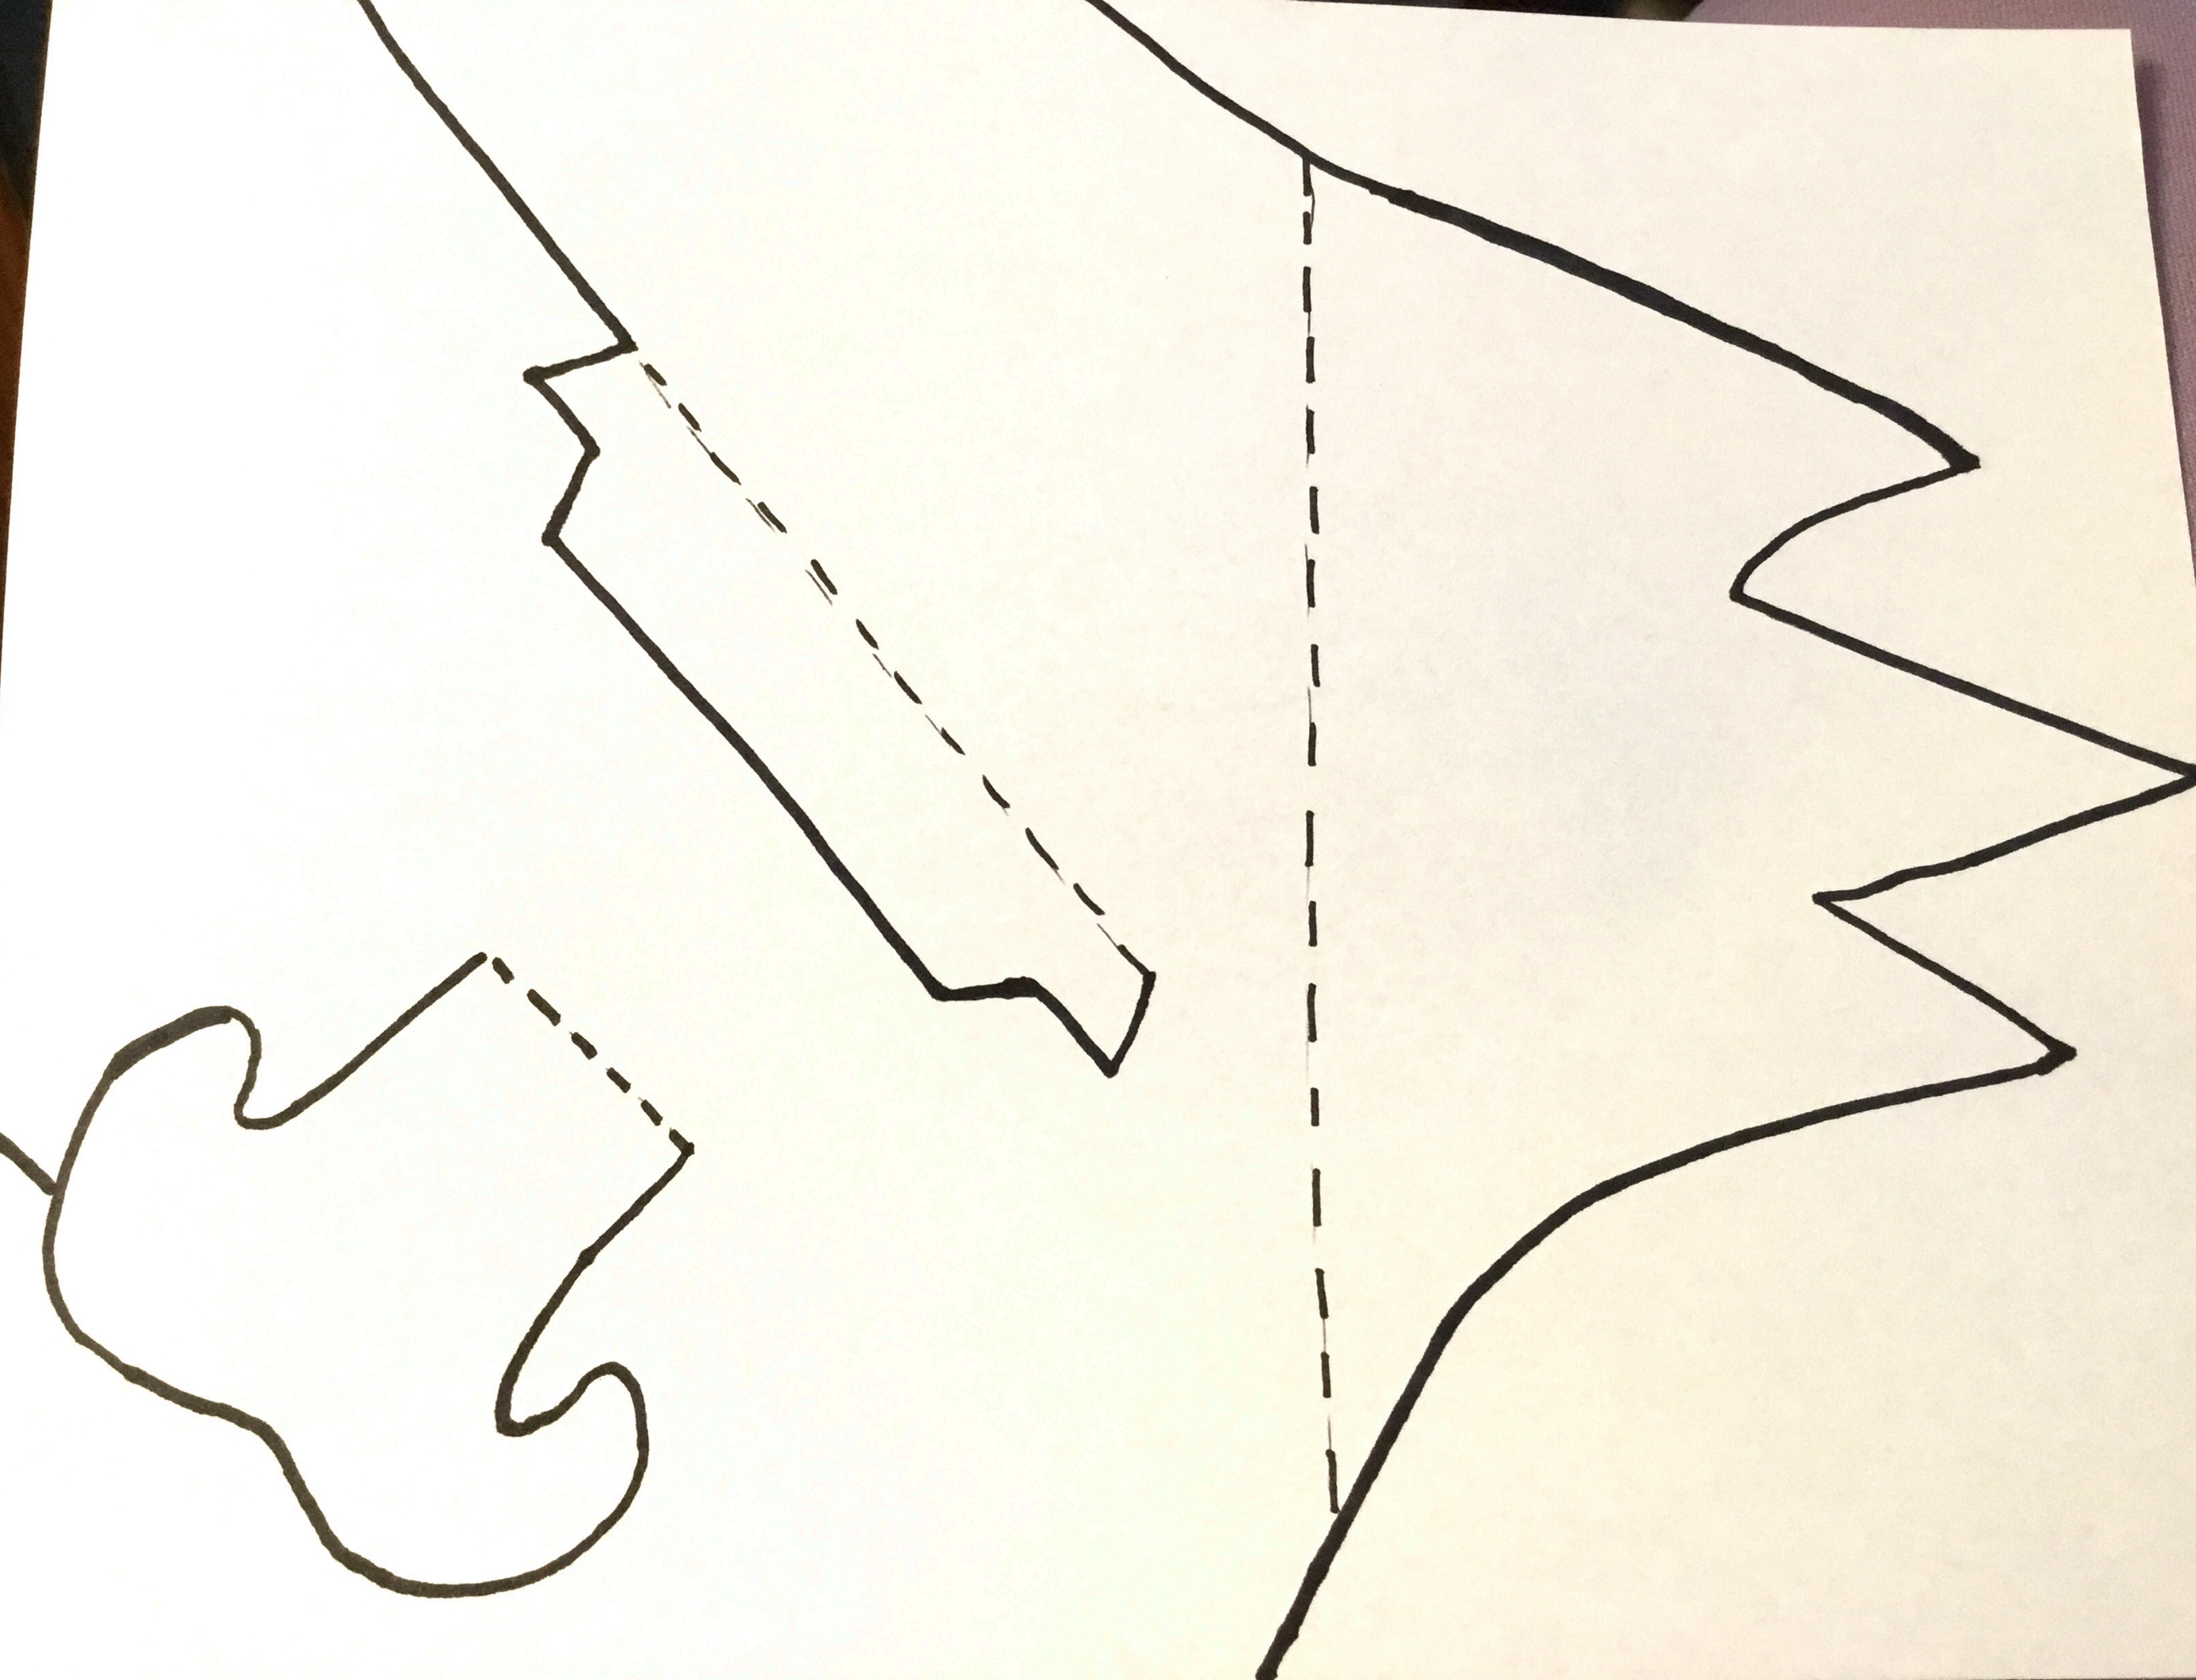

**Make a diagonal
line heading
toward the
middle, but the
end of it will form
the top and sides
only of Noah's ark.**

In the lower right corner will be your water explosion! You will need a little line going shortest path to edge of page. All you see here are cut lines.

**Draw the
dotted fold
lines.
on base of
wave,
bottom of
ark, and
bottom of
water
plume.**

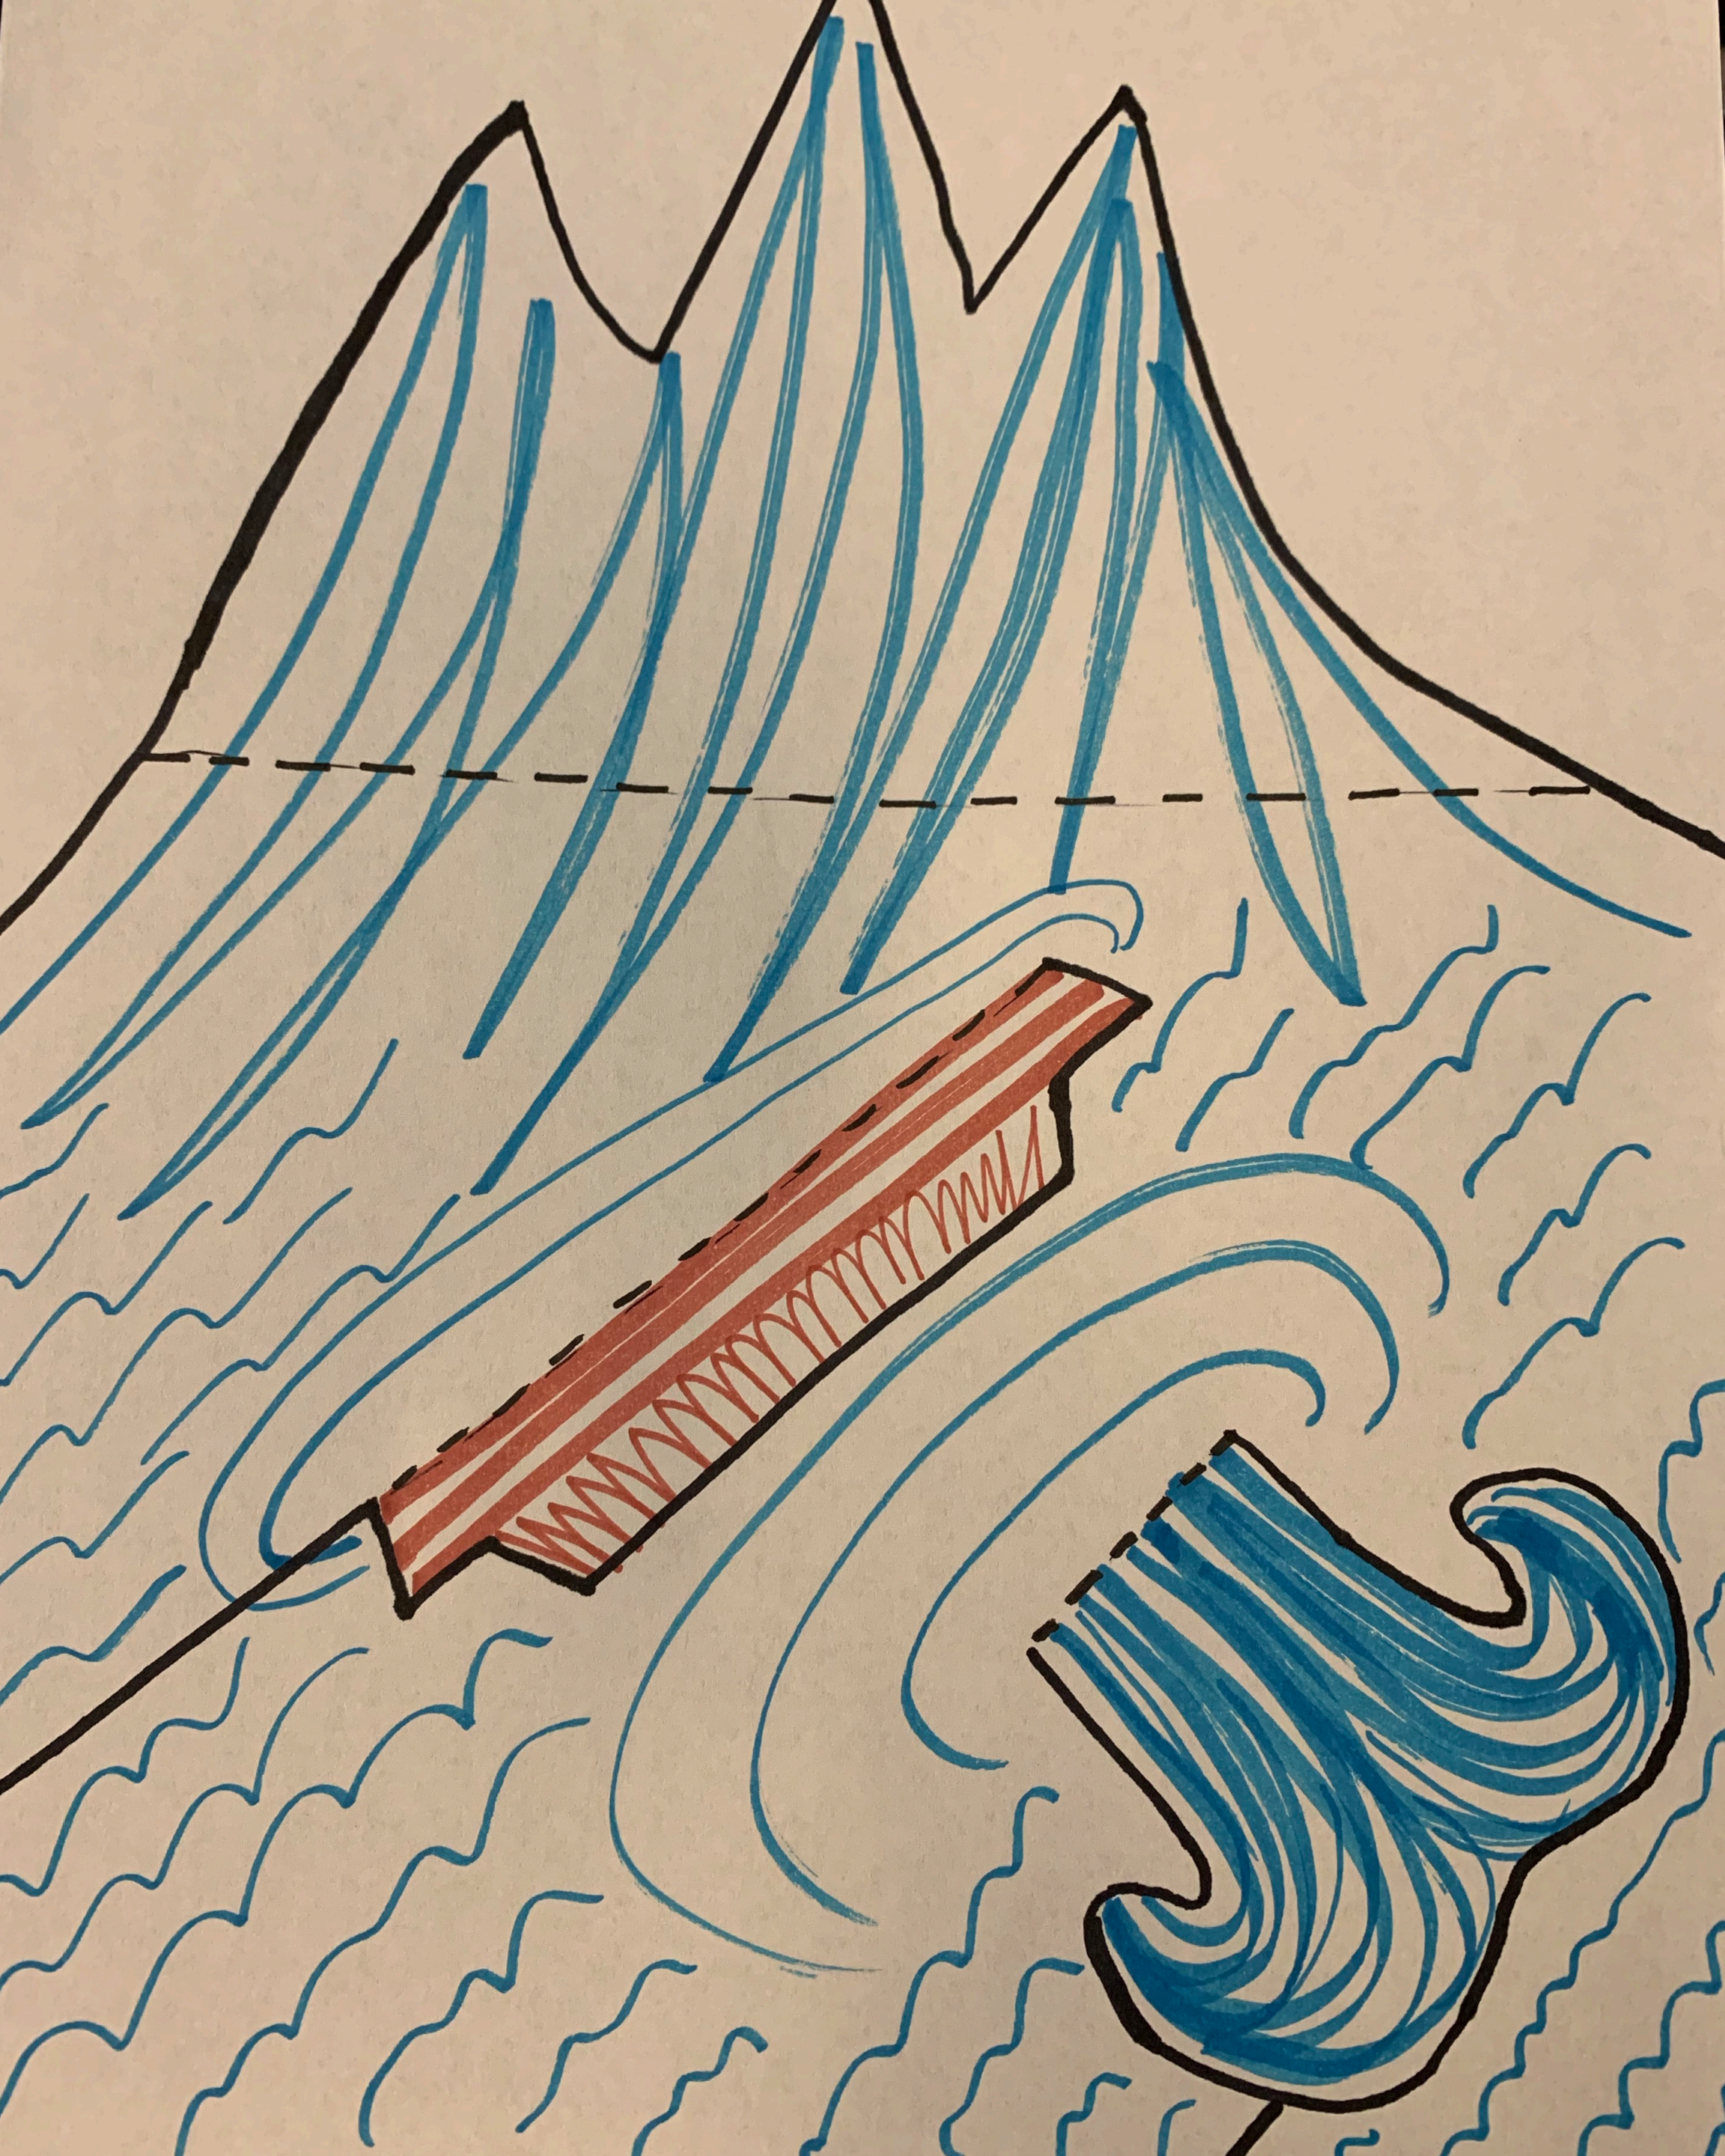

**cut all
solid
lines
starting
from
edge of
paper.**

**Make all folds.
The wave goes
folded toward
the ark, close to
it; and the ark
and plume fold
toward the wave.
Curl the wave
tops with a
pencil or marker,
one at a time.**

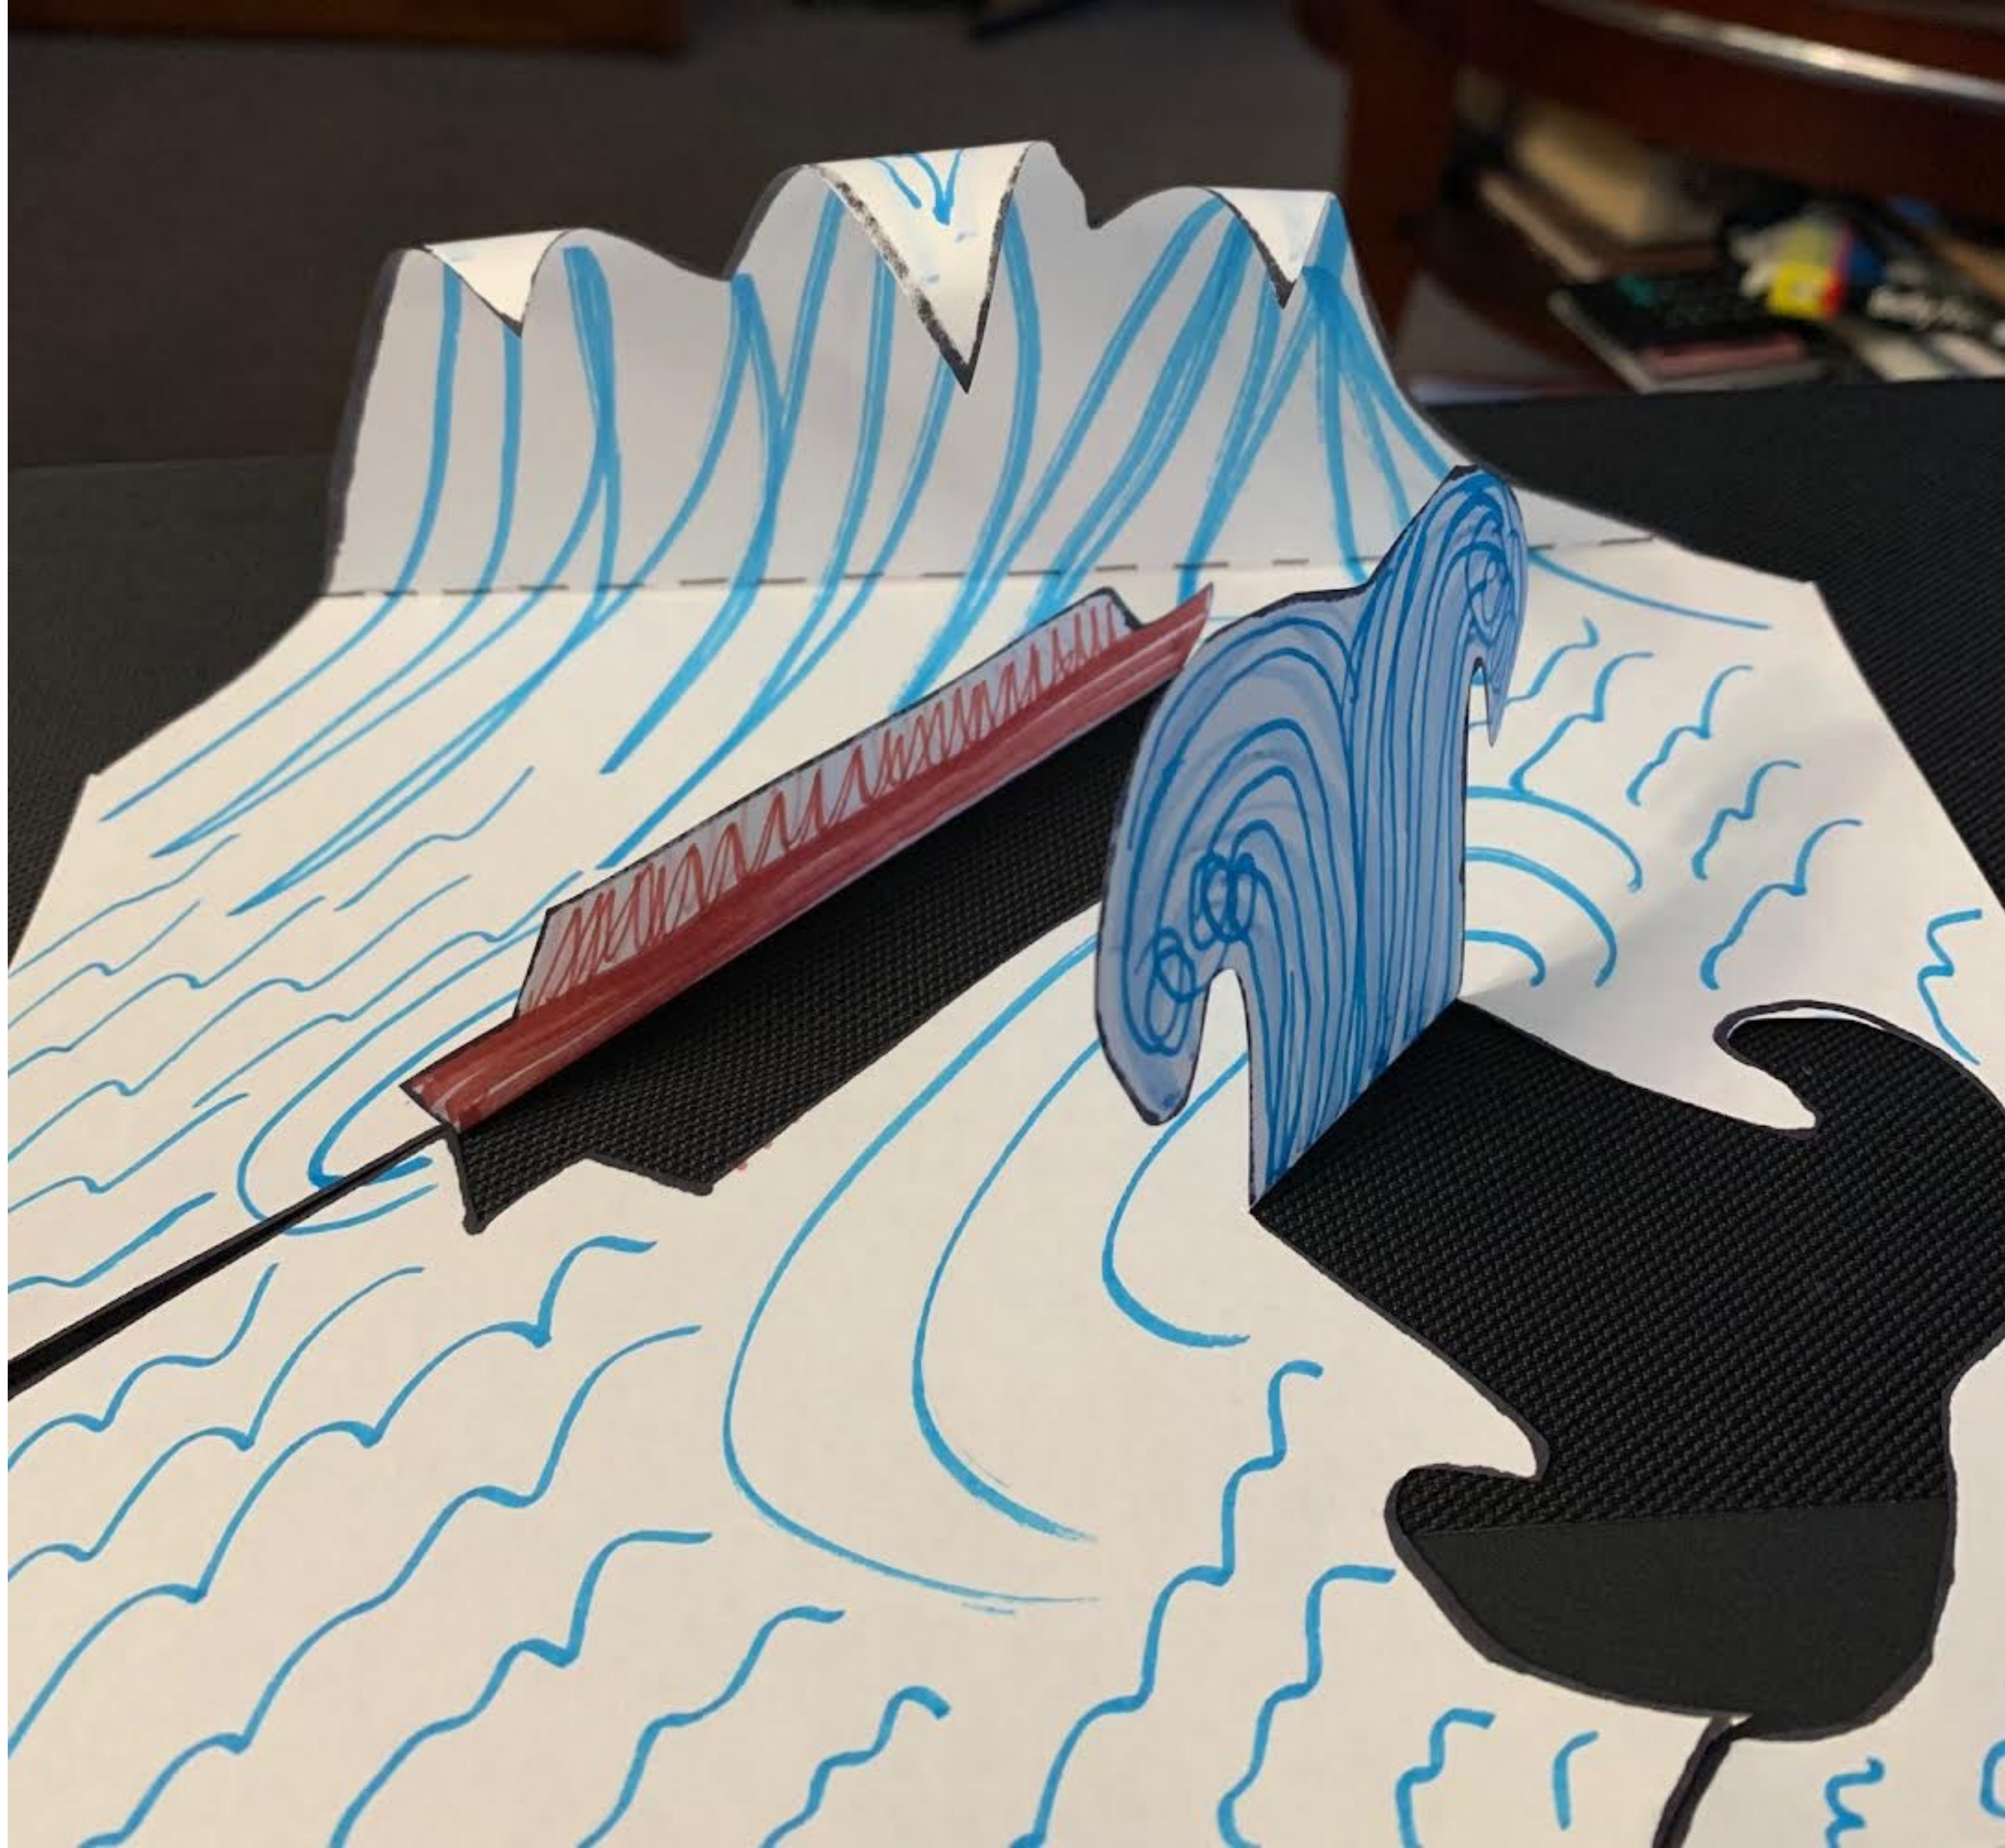

**Lay it all back flat
to color it. Then
color other side
of ark, plume,
and wave too.**

**The ark has
begun its
perilous
journey!!!!**

**Yet, the ark is
protected by
God.
Amen!!!**
